

## European Apprenticeship Track

As part of the Master in Management, you may choose the European Apprenticeship Track located on the Paris campus. This 24-month, part-time track has placed more than 950 apprenticeships with 300 partner companies. The programme, which alternates one week of classroom attendance and three weeks in-company, offers a unique opportunity to combine theory and practice and to develop highly marketable skills. The programme accommodates constant rotations between EDHEC and companies and enables you to capitalise on the experience gained. You will receive a monthly salary and the remaining tuition fees are paid by the company. French is recommended for positions in France.

*This programme requires you to stay in France with a valid titre de séjour for at least a year.*

## PROGRAMME

---

The programme offers cross-disciplinary contents integrating such highly practical skills as knowing how to manage information flows in corporate finance, market finance, taxation and law management, marketing, HR, consulting and project management etc.

LILLE CAMPUS  
September – December 2017

PARIS CAMPUS  
January 2018 – December 2019

## DOUBLE DEGREE

---

You will obtain a double degree EDHEC: **Master in Management degree** and **Master of Science degree**. For your final year (MSc), you will choose between two specialisations:

- MSc in Business Management (major in Marketing & Business Development or Organisation Development & Consulting)
- MSc in Financial Management (major in Corporate Finance or Capital Markets).

## CONCEPT

---

The first semester is spent on the campus in Lille where you will follow the M1 courses and will find your apprenticeship. A contract is drawn up between the company, EDHEC and you, agreeing to the conditions and monthly salary.

## STUDENT'SPEAK

---

Alexandre SAMET

« Ayant trouvé très tôt et avec certitude le domaine dans lequel je souhaitais évoluer, l'apprentissage s'est présenté comme une évidence. Depuis plus d'un an, j'acquiers de l'expérience tout en développant mon réseau, aussi bien chez SAP que dans son écosystème. Le rythme propre à l'EDHEC est un réel plus permettant d'avoir des responsabilités challengeantes et intéressantes. Les 2ans, permettent de varier les missions et de capitaliser sur les compétences acquises la première année. Les cours de l'EDHEC m'ont servi bien plus que je ne l'aurais pensé. L'étendue des sujets couverts permet d'échanger avec quasiment tous les départements stratégiques de l'entreprise vous donnant tous les outils pour sortir du lot ! »

Shiyuan DU

Studying in the apprenticeship track is a great opportunity for me, during which I met excellent and caring professors and very hard working classmates. I chose this program because it is a perfect match of academic learning and practical experience, and its flexible calendar allows us to set foot in the real business world before finish definitively our Master. Despite the fact that our time in the campus is limited compared to an ordinary program, our lectures are very well designed and intense, and we also had chances for summer exchange and various activities abroad. Furthermore, studying with classmates coming from different sectors is very inspiring, and I love the way that we can immediately put our knowledge into practice.
