

Business Management Curriculum

The Business Management programme is specifically designed to provide you the academia background and competences required for an international career in management. Taught on our [Lille campus](#), it awards a double degree: **the Master in Management and the Master of Science**. For your last year of studies, you can choose one of the EDHEC's Master of Science or opt for a double degree at [a partner university](#). One programme option is the [European Apprenticeship Track](#) that provides an opportunity to study while gaining valuable professional experience.

Foundation Year

[Year 1](#)

You will learn the fundamentals of business management through academic coursework and will have constant interaction with business executives. As part of the business management track, you will be exposed to challenging business related topics from day 1.

Exchange or Professional Immersion

[Year 2](#)

QUALIFICATION AND SPECIALISATION INTERNSHIPS An outstanding opportunity to acquire your first professional work experience through two compulsory internships of 6 months each and to leverage your international profile through work experience. You may also opt for a 6-month exchange at a [partner university](#).

Advanced Specialisation (MSc)

[Year 3](#)

You will return for your final year of studies and specialise in an area of business, from a choice of Strategy, Consulting & Digital Transformation / Marketing Management / Entrepreneurship & Innovation Management / LL.M. in Law & Tax Management / Creative Business & Social Innovation / Global Business / Management Studies.

You may choose to take part in an [exchange programme or pursue a double degree at a partner university](#).
