

Year 3 - Advanced specialisation - Master 2 (MSc)

On the completion of year 2 you will return for your final year of studies to follow a combination of core modules and seminars and specialise in an area of finance. These programmes are deeply-rooted into the expertise of our research centre, the EDHEC-Risk Institute, Europe's leading research centre in applied finance.

The Master in Management Financial Economics provide access to the following 4 specialised MSc programmes:

MSc in Corporate Finance & Banking

The [MSc in Corporate Finance & Banking](#) prepares you for careers in corporate finance and financial markets, in treasury management, corporate banking, and lending and treasury services.

Programme Sponsor

MSc in International Accounting & Finance

The [MSc in International Accounting & Finance](#) prepares you for careers as auditors, financial controllers and for other roles in the finance departments of financial and non-financial institutions as well as for careers in advisory services.

Programme Sponsor

MSc in Risk & Finance

The part-time [MSc in Risk & Finance](#), taught in London, trains you for decisions in financial markets and corporate finance and prepares them for careers in financial markets (sales, risk management, product development) and in banking (treasury, investment management services).

Programme Sponsor

SwissLife MSc in Financial Markets

Asset Managers

The [MSc in Financial Markets](#) offers 2 majors (trading and asset management) and prepares you for careers on the buy side (asset management, pension funds, hedge funds) and on the sell side (investment banks, private banking, brokerage firms or financial advisory).

GARP Professional Certification

Students enrolled in the **MSc in Financial Markets** and the **MSc in Risk & Finance** also have the opportunity to prepare for the [Financial Risk Manager \(FRM\) professional certification](#) offered by GARP, the Global Association of Risk Professionals.
