THE IMPACT ON MY INTERNSHIP PREPARATION**

"My strong interest in maths and macroeconomics led me to choose the MIM FE (Master in Management Financial Economics) programme. For me, EDHEC's strengths lie in its Career Centre, its powerful Alumni network and its faculty. I knew I had made the right decision by choosing EDHEC because from the offset we are surrounded by a support network whose aim is to train and help us in every possible way to secure positions within leading global financial institutions.

On my first day, the Career Centre advised me which spring, summer and off-cycle internships to apply for. It was thanks to the career centre team's help that I secured 3 internships, in 3 different banks, in 3 different countries for the professional immersion year. I start my MSc in Financial Markets in September 2016 and I'm really looking forward to it!"
